1. Basis of Presentation

The accompanying unaudited interim financial statements have been prepared by the Company pursuant to the rules and regulations of the United States Securities and Exchange Commission. Certain information and disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments and disclosures necessary for a fair presentation of these financial statements have been included. Such adjustments consist of normal recurring adjustments. These interim financial statements should be read in conjunction with the annual audited financial statements of the Company for the fiscal year ended December 31, 2014 included in the Company's 10-K Annual Report as filed with the United States Securities and Exchange Commission.

The results of operations for the period ended June 30, 2015 are not indicative of the results that may be expected for the full year.

2. Going Concern

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At June 30, 2015, the Company had not yet achieved profitable operations, has an accumulated deficit of $13,525,836 since its inception, has a working capital deficiency of $1,328,920 and expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. Management anticipates that it requires approximately $84,000 over the twelve months ended June 30, 2016 to continue operations as well as the Company estimates it will accrue related interest expenses of $88,000 over the next 12 months on loans due to related parties. In addition to funding the Company's general, administrative and corporate expenses the Company is obligated to address its current obligations totalling $1,362,003. To the extent that cash needs are not achieved from operating cash flow and existing cash on hand, the Company will be required to raise necessary cash through shareholder loans, equity issuances and/or other debt financing. Amounts raised will be used to continue the development of the Company's investment activities, and for other working capital purposes.

The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has no formal plan in place to address this concern but considers that the Company will be able to obtain additional funds by equity financing and/or related party advances; however there is no assurance of additional funding being available. The Company has historically satisfied its capital needs primarily by issuing equity securities. Management plans to continue to provide for its capital needs during the twelve months ended June 30, 2016, by issuing equity securities and/or related party advances.

4. Convertible Loan Payable

On January 5, 2014 Company entered into a Convertible Loan Agreement and issued a convertible note for $50,000. This loan is unsecured, bearing interest at 10% per annum, and is repayable at maturity on January 7, 2015, or on demand after that date. At any time, the lender may convert the principle amount of the loan into units of the Company, each unit consisting of one common share and one non-transferable share purchase warrant, at a conversion rate of $0.20 per unit. Each share purchase warrant entitles the holder to purchase one additional common share for a period of two years from the warrant issue date, at an exercise price of $0.20 during the first year, and $0.35 during the second year. As of June 30, 2015, $7,186 was accrued in interest on the note.

The Company calculated a beneficial conversion feature on the convertible note of $22,826, and this amount was amortized to interest expense during the year ended December 31, 2014. The amortization of the beneficial conversion feature is included in interest expense for the period ended June 30, 2014 was $11,413. Upon conversion of this loan, the $42,000 fair value of the warrants will be recognized as an interest expense and credited to additional paid-in capital.

5. Equity

At June 30, 2015, accrued interest includes $468,856 due to companies controlled by directors of the Company.

During the period ended June 30, 2015 the Company paid two directors $48,000 in management fees and $5,670 was paid for shared office and general expenses to a Company with a director in common.

7. Revision of Prior Period Financial Statements

In connection with our review of our financial statements for prior periods, we identified the following item which we have revised in our 2014 financial statements: A beneficial conversion feature on the convertible note of $22,826, and this amount was amortized to interest expense during the year ended December 31, 2014. Accordingly, the June 30, 2014 interest expense was revised to include the quarterly amortization of the beneficial conversion feature in the amount of $11,413.

The Company has evaluated the effect of the revisions on all relevant periods in accordance with Staff Accounting Bulletin (“SAB”) 99 and SAB 108 and determined that the impact of the revisions on its previously filed annual financial statements for the interim period ended June 30, 2014 was not material.

(Expressed in U.S. Dollars)
